STANDARD MEASUREMENTS

IMPORTANT:

When selecting pattern size, always be sure to measure over any clothing that will be worn under your finished garment.

In choosing your correct pattern size, compare your measurements with the measurements given in the standard measurement chart. If your measurements correspond to one size across the bust or chest and another at the waist and hips, it's easy to alter one of our multi-sized patterns to correspond to your measurements. Simply follow the lines on the upper portion of the pattern which correspond to your chest or bust measurement. Then gradually taper in or out to the size which corresponds to your waist and hip measurements. The appropriate amount of ease has already been added to the pattern—so you need not worry about adding ease. When purchasing fabric, buy the amount given for the larger size.

NO.	DESCRIPTION	COLORS/FEATURES	WIDTH	SAMPLES	RETAIL/yd	15 YD BOLT/yd
THINSULATE™ : Made of microporous fibers of 65% Olefin (Polypropylene) and 35% Polyester, Thinsulate™ is a very effective thin insulator. Olefin fibers aid in moisture evaporation. It is most effective when used with a wind-resistant or wind-proof outer shell. The non-scrim side of Thinsulate™ should go against a tightly woven fabric with a smooth surface. Features include: wide comfort zone, retention of insulation capacity when wet, low melting point.						
F11	Thinsulate™—CS 150 5.1 oz/sq yd. —.4" thick	For skiwear jackets, insulated outerwear, cooler climates. White	60"	\$1.00 (F11-12)	\$7.95	\$5.95
F12	Thinsulate™—CS 200 6.7 oz/sq yd. —.55" thick	For insulated outerwear in colder climates. White	60"	see above	\$9.50	\$7.13
F14	Needlepunch—Regular 3.1 oz/sq yd.	For padding, interlining, insulated interfacing. Polyester fibers punched through a light-weight fabric core. White	45"	\$1.00	\$2.75	\$2.06
F15	Needlepunch—Mylar 4.2 oz/sq yd.	For insulated shades and draperies, lunch bag and cooler insulation. Polyester fibers punched through an aluminized core fabric. Good insulator with added reflective properties. White	45"	\$1.00	\$4.98	\$3.75

*Other sizes and styles of zippers available by special order. Call for details. 100 each minimum on most styles.
See Sale Zippers for additional styles and colors.*

Coil zipper by the yard is especially well suited for application to packs, bags, sleeping bags, and garments which do not require a separating zipper. Coil zipper bends around corners better than molded tooth or metal zippers.

COIL ZIPPER BY THE YARD

The size for coil zipper pulls can be found on the nose (center bar) of non-locking coil pulls, or the back of most locking pulls.

5C = #5 Coil Zipper, 8C = #7 Coil Zipper.

Measure here (inside dimension) to determine size for replacement pulls: #7 = .7 cm wide, #5 = .55 cm wide.

Check size or measure as indicated before ordering replacement pulls.

IMPORTANT: To qualify for Bulk Prices invoice subtotal must be over \$30 & Bulk Minimums must be met.
